PROFILE

I am a front-end developer dedicated to creating dynamic and responsive web applications. I specialize in using HTML, CSS, and JavaScript frameworks like React, Node JS to write clean, efficient, and maintainable code. I work closely with designers and back-end developers to ensure that visual aesthetics and technical functionality come together seamlessly. I excel at turning complex requirements into intuitive interfaces that exceed client expectations. Continuous learning and adaptation are key to my approach, allowing me to stay ahead in the fast-paced world of web development. My goal is to deliver high-quality, user-friendly digital solutions that meet business objectives and delight users.

HOBBY

Enthusiastic Sketch artist exploring the world of Art. My favorite thing after web development is to do portrait sketch.

EXPERIENCE

As a Student, currently employed at DELHIVERY (Transportation, Logistics, Supply Chain and Storage) I am experienced in team work, active conversations and logical thinking . My expertise are in Web Development , Billing, Managing Packages etc.
